

Director Sir Lecture Talk Session

The whole lecture was about the universal standard way of living. How should one live, How should one behave at different phases of life, What should one do in a dilemma situation. Mainly Sir was focussing on the learnings from the surrounding. He has divided his whole talk into some episodes. Each episode was related to the Greats of the past or Sirs experience itself.

Episode 1:

In the first episode, he talked about the great Sardar Vallabh Bhai Patel. He was a successful lawyer. Sir talked about how passionately he was dedicated to his job. In spite of the fact he had a telegram in his pocket describing the inauspicious news of his wife's health, he didn't open and saw it unless he was done with his hearing.

Episode 2:

In Second episode he mentioned the Father of the Nation Mahatma Gandhi Ji. He was supposed to inaugurate a school but he refuged. The Gandhiji had shared his views on why he should not inaugurate the school.

Episode 3:

In the third episode, Sir presented the story of two technocrats of being interviewed having the same level of education and intelligence in every field the job demands. But the authorities had to select one for higher post and other for lower but both jobs were of top-level designation in the company. After spending a lot of time interviewers could not decide who will get the better post, so they decided to spell the words. The interview in frustration said loudly 'GO OUT'. One interviewee simply left the room while the other spell it. The latter was appointed for higher designation.

Episode 4:

This episode was related to Alexander The Great. He was on the death-bed. He had three wishes and asked his generals to please carry them without fail. His first wish was that his physicians alone must carry his coffin. Second, the path leading to his grave must bestrew with gold, silver and precious stones which are there in his treasury while his body would be carried to be buried. Last, his both hands should be kept out of his coffin. Each wish has a deep meaning which sir has discussed properly.
